***1340 State Route 9***

***3<sup>rd</sup> Floor, Conference Room A/B***

***Lake George, NY 12845***

***ON***

***October 28, 2014 8:30am – 11am***

***DPW ONLY***

Each year, one of the leading causes of work related deaths and injuries are motor vehicle crashes, yet few agencies provide regular training on the safe operation of a vehicle. The “*Drive to Survive*” training program is designed to teach employees that no matter how long they have been driving, or how “good” they think they are, there are limits to the safe operation of a vehicle. Using the same techniques used by crash investigators, this class is designed to provide a better understanding of important topics that are essential for safe driving, such as:

- ✓ Vehicle Dynamics
- ✓ Seat Belt Use
- ✓ Brake Fade
- ✓ Roadway Friction
- ✓ Stopping Distances
- ✓ Skid Control
- ✓ Critical Curve Speed

- ✓ Air Brakes
- ✓ Anti-Lock Brakes
- ✓ Hydroplaning
- ✓ Tire Blowouts
- ✓ Drunk Driving
- ✓ “Black Boxes”
- ✓ Civil Liability

The “*Drive to Survive*” training program is a 2.5 hour, lecture based seminar, which has been presented to over 12,000 students at over 240 different locations throughout the United States.

“*Drive to Survive*” addresses advanced topics that are not normally covered in basic driver training programs. **The class is specifically geared to Heavy Vehicle operators for Highway/DPW Depts and Commercial Vehicle operators.** As vehicle crashes are one of the greatest liability issues for municipalities, the class also addresses important issues for the managers and supervisors who are ultimately responsible for the operation of any motor vehicle or driver training program.

***The seminar is FREE to employees of all NYMIR municipalities.***

**Non-NYMIR Attendees, class cost is \$35.00 per person to be billed after class.**
